

I need your vote in this second ballot if we are to ensure the professional staff member on Senate is a strong voice who will speak up for full disclosure. Senate benefits from the perspective of an experienced insider who knows how things work. Check my record at www.itee.uq.edu.au/starkey. I remain committed to seeing the workplace culture change agenda deliver improvements for professional staff, such as more respect and a bigger say for us. This is now a standing agenda item at Senate meetings and I am on the working party to build a UQ Staff Community. Let's do this!
